Dr. Bumphus, on behalf of the Board of Supervisors, acknowledged Mr. Jones for his exceptional work on two major projects that allowed the LCTCS to begin school this fall in several new locations including the Louisiana Delta Community College and the garage at the Baton Rouge Community College. Dr. Bumphus, accompanied by Dr. Myrtle Dorsey, Chancellor, Baton Rouge Community College, presented Mr. Jones with a plaque on behalf of the LCTC System.

ASSESSMENT UPDATE – Durkee, Project Manager, VFA (AGENDA ITEM K.8.)

Mr. Jerry Jones provided an update on the facilities assessment program. He began with a brief background on the development of the Facilities Assessment project and why it was done. He stated that the purpose of conducting the facility assessment project was to determine what facilities existed within the LCTCS, where they were located and the condition of those facilities. He emphasized that the data collected needed to be meshed with the needs assessment information to determine that the right programs
are being offered at the right facilities. He indicated that the information provided in this database, combined with the needs assessment report, would be a valuable tool to present to the legislature to document the needs of the System in regards to facilities.

Mr. Henry Reed, Project Manager assigned to the task of getting the audit fee, hiring the firm to complete the facilities assessment and overseeing the assessment, addressed the Board and provided additional information on the assessment report.

Mr. Dan Durkee, Project Manager, Vanderweil Facility Advisors, Inc. (VFA), presented a PowerPoint presentation providing a summary of the facility assessment findings for the LCTC System. Mr. Durkee provided a brief overview of what the VFA does, the process that was used in putting the numbers together for the LCTCS, and he demonstrated what the final numbers were. He stated that the resulting database allows the System to update the data and keep it current, and each individual campus will have the capability to access the information for their campus facilities. He challenged the LCTCS to utilize this data now and work with the VFA in the future to narrow down what are the highest priority issues and business objectives. He concluded that copies of the report will be distributed to each campus for review and feedback.

Supervisor Smith asked for a copy of the PowerPoint presentation. Mr. Reed responded that he would e-mail a copy of the presentation to Dr. Bumphus to forward to members of the Board.

A lengthy question/answer discussion ensued.

**On motion of Supervisor Christopher, seconded by Supervisor Stone, the Board voted to approve the financing and construction of a Student Life Center for the West Bank Campus of Delgado Community College, contingent upon the resolution of all financial and legal issues, provided that the project is in compliance with the Board’s Management of Alternative Financing Projects Policy (Facilities 1.007), and the lease documents associated with this project, in concept, if available and in proper order at the date of the Board meeting.**

Dr. Bumphus asked Mr. Leo Hamilton, legal counsel for the LCTC System, and Mr. Jimmy Eagan, Vice Chancellor, Delgado Community College to address the Board and explain the process used to reach this point and to answer questions posed by the Board.

Mr. Hamilton addressed the Board and explained his concerns regarding this issue. He stated that he had not received the documents until just recently and was not sure what documents would be going forward. He stated that he felt that his concerns had been resolved and felt that if the item received Board approval, the project would be able to move forward. He explained that any proposal approved by the Board would then have to be approved by the Board of Regents.

Mr. Eagan addressed the Board and answered questions posed.

Lengthy discussion of this item ensued.

Chair Knapp voiced her concern and questioned why the process used previously was deviated from, given the high scrutiny that the alternative financing projects have been subject to.
Mr. Eagan responded that this project differed from the other projects because no state funds are involved.

Supervisor Chigbu continued to question the process that was used in initiating this project. He recommended that the item receive approval to move ahead, but added that before any more projects are approved, a process needs to be implemented where the Board has a say on public facilities corporations.

Mr. Hamilton stated that the purpose of the Cooperative Endeavor Agreement is to place restrictions upon the other parties involved so that the Board is assured a certain measure of protection and involvement. He added that each Cooperative Endeavor Agreement includes a requirement to report to the Board, includes a representative will attend all meetings and be included in the decision making process, and includes that every document related to the project is a public document.

**Supervisor Christopher presented a motion for a close to the debate.**

Chair Knapp objected to the motion. A roll call vote was taken resulting in ten (10) yeas, and two (2) nays.
