General Information for All Proposals

Introduction

With nearly 600,000 adults without a high school diploma or equivalent, Louisiana faces a tremendous challenge when implementing strategies to grow its economy and provide all workers with quality jobs. At present the state has the lowest workforce participation rate in the nation at 71 percent. When dissected by educational attainment, the portion of the state’s population without a high school diploma participates in the workforce at a rate of only 55 percent. Those without a high school credential compose the vast majority of citizens who are unemployed or underemployed, and many struggle to provide themselves and their families with food, housing, healthcare, and educational resources.

Last year, to better address the State’s challenges and ensure more family-supporting jobs for adult education students, Louisiana began an initiative to expand adult education programming beyond literacy and GED acquisition to providing adult education focused on work ready skills and transition to postsecondary education. The framework for the expanded adult education programming is called WorkReady U. WorkReady U links intentional work-readiness and employment to the more traditional adult education goals of literacy and high school equivalency diplomas. Accordingly, WorkReady U adds performance benchmarks that more closely integrate adult education basic skills instruction with work-readiness skills training and postsecondary credits. The goal of the Louisiana Community and Technical College System (LCTCS) and the WorkReady U system is to provide all adult basic skills students with the skills and support necessary to obtain family-supporting jobs leading to economic growth within the state. Successful applicants will demonstrate the provision of strong academic and social supports to participating students, with strategies to retain students by mitigating the barriers that prevent students from completing both adult basic education and postsecondary training programs.

The Request for Proposals (RFP) provides guidelines for four overlapping, but separately funded programs for fiscal year (FY) 2012-2013:

1. Adult Education – Federal Basic Grant Program: Federally funded competitive grants for adult education programs. Programs must implement adult basic skills projects and report on indicators in the National Reporting System (NRS).
2. Adult Education – State Grant: State funded competitive grants for adult education. Programs must implement adult basic skills, as well as work-readiness skills, and pathways to occupational training and/or postsecondary coursework. Programs must be able to report outcomes that are aligned with the NRS and WorkReady U standards.
3. Family Literacy: Federally funded competitive grants for family literacy programs designed in accordance with the Even Start Family Literacy Program model. Adult Education funds for family literacy may include adult and parenting education services.
4. English Language/Civics Education: Federally funded competitive grants for English literacy programs linked to civics education.
Applicable Laws and Regulations

Title II of the Workforce Investment Act (WIA) of 1998 authorizes the Adult Education and Literacy Program in Louisiana. The current Unified State Plan was authorized for five years from July 1, 1999, to June 30, 2004, and has been extended each year thereafter.

All recipients of funding shall comply with Louisiana Revised Statutes, Title 17:14.1, 17:1871 and 17:3217.1, and the Adult Education and Family Literacy Act (AEFLA), P.L. 105-220. Additional federal statutes governing local funding include the General Education Provisions Act (GEPA) and the Education Department General Administrative Regulations (EDGAR).

Recipients of federal funds who receive in excess of $500,000 from all federal sources must comply with Circulars A-128 and A-133 issued by the U.S. Office of Management and Budget regarding external audit requirements.

Local providers are responsible for issuing announcements concerning the allocation of federal funds to support the adult education program. When issuing press releases describing programs funded in whole or in part with federal money, all recipients shall clearly state:

1. The percentage of the total cost of the program that will be financed with federal funds; and
2. The dollar amount of federal funds for the program.

Project Period

Federal Funds - Basic Grant, Family Literacy Grant, and EL/Civics Grant: July 1, 2012-September 30, 2013 (with ability to apply for continuation funding for a second program year)
State funds: July 1, 2012 – June 30, 2013

Proposal Information – Applicable to all proposals

The information contained in this section includes application and program requirements that are applicable to all adult education grant programs contained in this RFP. For grant-specific requirements and scoring criteria, please review the information in the section specified for the specific grant.

Eligible Applicant

Entities which are eligible to submit applications for all four types of grants in this open competition for adult education funds include:

- local educational agencies (LEAs);
- community-based, faith-based or volunteer literacy organizations of demonstrated effectiveness;
- an institution of higher education;
- a public or private nonprofit agency;
- a library;
- a public housing authority;
- a nonprofit institution that is not described above that has the ability to provide literacy services to adults; and
- a consortium of the entities listed above.

Regional partnerships to specifically address the focus of transitioning adult learners beyond basic adult education to work-readiness skills, and postsecondary education and employment opportunities are encouraged.

Transparency Act Requirement

All applicants must provide the information in Appendix A to comply with the Federal Funding and Transparency Act when responding to this RFP. A Data Universal Numbering System (DUNS) number is a nine-digit number established and assigned by Dun & Bradstreet, Inc. School districts and postsecondary institutions usually have been assigned a DUNS number, as well as any other potential applicant that receives funding directly from the federal government. If needed, a DUNS number may be obtained from Dun & Bradstreet, Inc. by telephone (currently 866-705-5711) or the internet (currently at http://fedgov.dnb.com/webform).

Population to be served

The eligible population to be served will be individuals who have attained 16 years of age; who are not enrolled or required to be enrolled in secondary school under State law; and who (i) lack sufficient mastery of basic educational skills to function in society; (ii) do not have a secondary school diploma or its recognized equivalent, or have not achieved an equivalent level of education; or (iii) are unable to speak, read, or write the English language.
Applicants applying for state funds, need to show strong articulation between adult education, workforce preparation, and postsecondary entrance and completion, serving adults 16 years and older, with a focus of serving adults 18 years and older.

**Minimum service to increase access per parish**

All applicants within a single parish are expected to plan together to ensure that the needs of all adult learners are being met without duplication. The need for literacy instruction should be considered in the context of postsecondary, occupational/technical education, and employment opportunities.

In keeping with the goals of the AEFLA State Plan to enroll and increase retention of more adult learners, the state will expect at least one applicant in each parish to plan to operate a comprehensive adult education program with managed enrollment and/or open-enrollment for a minimum of 30 hours per week. A budget for at least one full-time teacher who provides 30 hours of instruction per week for a minimum of nine months is preferred. If 30 hours of instruction is a challenge to provide in one location, an eligible entity will be expected to form partnerships with other eligible entities to accommodate the required hours for instruction for all learners. A recipient or partnership may request a waiver of this requirement in writing, submitted with this application, based on lack of need in the area serviced by the recipient or partnership. The request for a waiver must include a justification and supporting data. The recipient/partnership will be notified in writing by LCTC regarding whether or not the waiver has been authorized.

**Allowable Services**

Literacy services will consist of basic skills instruction that will include technology-based instruction and workplace readiness/literacy instruction. Research-based practices will be used for instructional services that support student learning and development through classroom, small group, individualized instruction, computer-assisted instruction, tutoring and academic enrichment.

In addition to basic skills and GED preparation, plans for service delivery must include attention to the following priority area identified by Louisiana to transition adult learners to career and postsecondary opportunities.

- Integrate adult basic education with career and technical education pathways;
- Improve postsecondary graduation rates by supporting adult learners’ academic preparation to align with their postsecondary education and career goals.
  - Review and/or develop specific curriculum to address the literacy skills needed for successful transitions.
  - Market the GED as the gateway to postsecondary, occupational/technical education, and employment opportunities.
For applicants applying for **state funds**, ADDITIONAL services include dual-enrollment in postsecondary institutions and career, technical and/or occupational coursework that leads to quality jobs.

**Staff development**

Programs receiving funds are required to provide a minimum number of hours, as provided for in the AEFLA State Plan, of state-approved staff development for each instructor, both full-time and part-time, from local, state or federal administrative funds. The minimum number of required hours of professional development is 15 hours per year for full-time professional staff and 10 hours per year for paraprofessionals and part-time staff.

**Program Performance Measures**

For the funding year 2012-2013, grant recipients are required to meet or exceed the Louisiana benchmarks of performance, as approved by the U.S. Department of Education, Office of Vocational and Adult Education (USDE/OVAE), for the applicable populations. The 2012-2013 negotiated benchmarks will be sent to funded programs upon approval by USDE/OVAE. The 2011-2012 performance benchmarks are included in Appendix B for reference. Programs should use the 2011-2012 performance benchmarks for guidance, expecting a one to two percent increase in each area.

A commitment to new goals for adult education programming under the WorkReady U system requires a focus on additional performance measures. Applicants for State funds will have additional performance measures to report on. Emphasis on the current and/or new performance measures will be valued in the following order:

- Numbers served
- GED completers
- Postsecondary Enrollment
- Postsecondary Completers
- Enter/obtain employment

**Administrative Requirements**

**Reporting requirements**

The number of students and staff, as well as program information, is required to be submitted monthly by the subgrantee using the database approved by LCTCS Literacy, Adult and Community Education System (LACES). Data collection and reporting is to comply with Adult Education and GED Policies\(^1\) approved by the LCTCS Board of Supervisors on February 9, 2011. Grantees winning state funds will be required to participate in efforts to collect longitudinal participant data to track student progress through both ABE and college preparation/career pathways and employment.

---

\(^1\) Adult Education and GED Policies may be downloaded at [http://www.lctcs.edu/aegedpolicies](http://www.lctcs.edu/aegedpolicies).
Financial reports should be submitted monthly and should reflect actual expenses and activities for each month of operation. Copies of invoices must be maintained at the local level for audit purposes. Forms to request reimbursement of expenses will be provided to successful applicants. A final report consisting of a narrative progress report, final financial report (project completion report), and a final project report is also required from each subgrantee. Final reports are due by July 31 of each year, or within 30 days of the conclusion of the program, whichever is earlier.

**Program Evaluation and Review**

LCTCS and its authorized representatives reserve the right to examine all fiscal reports, program records, and documents related to the funded program or applicant for funds.

**Fiscal Management**

Any recipient of funds under this RFP that expended less than $500,000 in federal awards (including all federal awards from any federal agency) during the fiscal year ending September 30, 2011, must use a LCTCS postsecondary institution as a fiscal agent for these grant funds.² The postsecondary institution to be used as the fiscal agent shall be designated by LCTCS.

The use of the postsecondary institution as a fiscal agent, would be for internal control purposes only. The grant recipient will remain the legal subgrantee, with final decision making authority over the provision of services under the subgrant. The recipient, among other activities, would continue to (1) determine who is eligible to receive what federal financial assistance, (2) have its performance measured against whether the objectives of the adult education program are met, (3) have responsibility for programmatic decision making, (4) have the responsibility for adherence to applicable federal program compliance requirements, and (5) use the federal funds to carry out the program of the organization as opposed to providing goods or services. The audit and management of the federal funds would be the responsibility of the fiscal agent.

**Adult Education – Family Literacy Grant**

The purpose of family literacy programs is to help break the cycle of poverty and illiteracy. In order to improve educational outcomes for low income families, the Family Literacy Model incorporates four core components: early childhood education, adult basic or literacy education, parenting education, and parent and child interactive literacy into a unified family literacy program similar to the design of the Even Start Family Literacy Program. The Even Start Family Literacy Program model can be found at [www.evenstartnetwork.net](http://www.evenstartnetwork.net) and [www.famlit.org](http://www.famlit.org).

Families eligible to participate in the Program include parents ages 16 years and older, with a child from birth through age seven, who have dropped out of school, who may lack the basic education skills to become self-sufficient or who are in greatest need of adult literacy instruction and/or are teen parents. The family (parent and child) must participate in the Program for either the parent or child to be eligible for services.

The Louisiana state plan for Adult Education and Family Literacy authorizes up to 5% of the federal AEFLA grant funds to carry out the Family Literacy Grant projects. Adult education federal funds for Family Literacy may be used to provide adult and parenting education services, which include the four required components of early childhood education, adult education, parenting and parent and child together-time. Childcare for participating families may be offered. Activities must be of sufficient intensity and duration to make substantial and measurable gains in the educational level of adults and children, aligned with the Even Start criteria in the *No Child Left Behind Act*.

Adult Education – English Language/Civics Education

The purpose of the English Language/Civics Education (EL/Civics Education) Program is to support projects that demonstrate effective practices in providing and increasing access to English literacy programs linked to civics education. To become full participants in American life and to be successful workers, citizens, parents and family members, adults in the United States must be able to read and communicate in English. Evidence indicates that individuals with limited English proficiency are eager to learn English and other skills needed to succeed in U.S. society. English literacy instruction is one of the fastest growing components of adult education, with enrollment in English literacy classes increasing over the past ten years.

In addition to learning English, individuals must be able to understand and navigate governmental, educational, and workplace systems, as well as key American institutions, such as banking and health care. Civics education means an educational program that emphasizes contextualized instruction on the rights and responsibilities of citizenship, naturalization procedures, civic participation and U.S. history and government to help students acquire the skills and knowledge to become active and informed parents, workers and community members.

Grants may be used to support a variety of activities and costs related to English language and civics education instruction, including the costs of staff and instructors, materials, staff training, and support services for program participants. Additional funding should be used in Louisiana for sites to conduct local research, develop curriculum materials, conduct pilot instructional programs integrating English language and civics education, and to develop innovative ways to expand existing English-as-a-Second Language (ESL) programs, integrating them with civics education.

This is a two-year grant; however, applicants selected for funding this year will have to submit a continuation application to receive funds in the second year. Funding in the second year will be contingent on program performance and the availability of funds from the U.S. Department of Education.
