Chair Smith reported that the System Office received an unqualified audit with no findings for the LCTC System and selected LCTCS campuses. Chair Smith commended Dr. May and Jan Jackson, Senior Vice President of Finance and Administration, and her staff for receiving this compliment. He noted that it is very rare to receive an unqualified audit with no findings, particularly for an institution as large as the LCTCS. He acknowledged Shannon Sedberry and Joe Marin for their work.
• Ethics Requirements Workshop. A workshop will be conducted by Allen Brown, Director, Internal Audit, directly after the board meeting for board members to receive a briefing on reporting requirements. The workshop will be held in the 1st floor conference room at the System Office.

2. President’s Report

Dr. May presented the President’s Report. The following topics were discussed:

• Annual Regional meetings. Dr. May commended Jennifer Daly on her assistance on arranging the meetings and thanked all staff, chancellors and regional directors, for their assistance and participation in the meetings. He thanked board members for their participation and input during the meetings.

• State budget update. Dr. May noted that the LCTCS was spared the first cuts to the budget which allowed growth in the System with an increase in enrollment of 7,000 students from last spring. Dr. May noted that the budget will be a major topic during the upcoming legislative session and Governor Jindal will hold a press conference today in Lafayette to announce his support in receiving better flexibility on how he can manage a statutory dedicated funds that will result in a decreased burden as it relates to higher education and health care. Dr. May commented on the number of the editorials and articles pointing out the tremendous contribution that the LCTCS has had on businesses and the economy. He noted that the House Appropriations Committee will meet on April 21st. He added that the budget would be prioritized – not all campuses will be treated the same – and a funding formula will be used to determine distribution of the budget. Continued meetings will be held with chancellors and regional directors to finalize an approach to address the budget.

• The legislative session will begin on April 27th. Dr. May listed several things that the System will be advocating in line with overall System goals: 1) Senator Ben Nevers is working to develop an articulation/transfer bill to ensure transferability of degrees between 2-year and 4-year institutions; 2) increase the number of core courses to be transferred; 3) create a tracking instrument to ensure students receive proper credit for courses taken. A document outlining the LCTCS position on this issue was provided to state legislators and includes 13 points to be included in a Transfer Policy. A copy of the document was distributed to members of the board.

Chair Smith stressed the importance of this issue. Board members discussed the issue at length.

Dr. May continued with listing System goals with 4) Senator A.G. Crow has pre-filed legislative that will result in positive changes to the Tops Tech program and will allow more students to take advantage of the program by ensuring that they will continue to receive Tops Tech funds if they transfer to a 4-year institution. Currently, the benefits cease at the end of two years, creating a
major disincentive for students; 5) standard on-line tuition throughout the state for all colleges; 6) work with administration to address rules related to carry-over funds to assist in managing the budget.

- Acknowledged Dr. Jan Brobst, Chancellor, South Louisiana Community College, on the creation of a new Associate of Science in Nursing degree program at the college. He noted that Region 9 will also receive accreditation and Region 8 is currently going through the process and just received the Heating/Air Conditioning accreditation.
