G. REPORTS

1. Chair of the Board Report

Chair St. Blanc presented the Chair of the Board Report. The following topics were discussed:

- LCTCS commencements. Chair St. Blanc commended the chancellors and regional directors on the number of graduates passing through the community and technical colleges. He noted that it is inspiring to see the increase in the number of graduates compared to what it was when the LCTC System was created. He commented also on the quality of the student graduates. He recommended that board members attend the commencement ceremonies whenever possible.

- Chair St. Blanc commented on the advocacy group and the work they have conducted with the Louisiana legislature. He stated that the work has been very successful again this year.
• Supervisor Stevie Smith reported on his participation in the Salzburg Global Seminar held in Austria. He stated that he was allowed to participate in the program this year along with students from several LCTCS colleges. The LCTCS sends approximately 15 students to the seminar each summer which consists of seven (7) days of lecture to emphasize to students what it means to be a global citizen. He commended the program and stated that the LCTCS should be proud of the program.

• Chair St. Blanc introduced Mr. David Barren who was present for the meeting. Mr. Barren is a former employee of Bell South with Tommy Williams. He added that Mr. Barren works with government affairs with Adams and Reese in Washington, DC.

• Chair St. Blanc stated that today is his last meeting to serve as Chair of the Board. He expressed his thanks to the chancellors and regional directors and LCTCS staff and stated, “...thank you for teaching me what community and technical colleges are all about. In the last two years I have worked with every one of ya’ll and every one of ya’ll I have met ... have helped me learn in this position ... I respect you, I admire you and I know what ya’ll do....” He thanked Mr. Leo Hamilton, General Counsel to the Board, for his friendship that will never be forgotten. He thanked the members of the Board for the opportunity and stated, “...thanks for giving me this opportunity. I enjoyed it. Thank you from a person that started teaching and I always said that if I had a position that I would look out for students, I would look out for teachers and administrators and here I sit today and in two years I have done everything that I could to help them and I appreciate that ya’ll gave me the opportunity.” He expressed his thanks to Tommy Williams for his friendship and for all the conversations held during the legislative session and Bonni Blouin for her assistance. He thanked Dr. May and stated, “...every time I opened my mouth this man would get nervous. He has taught me so much...” He stated that he only has one regret as Board chair and that is he could not do more for Dr. May financially. He concluded by stating that, “...for every person in this room, and being from a business and running two businesses, every one that sits on this Board and everyone in this room comes to work not to earn a paycheck but to better Louisiana. I can honestly say it’s for the students. It’s not too many times that a person has the ability to sit as a board chair and can actually say that everyone that he is associated with right now comes to work for the student and a better Louisiana. And that’s what makes this job easy and very proud of. So thank ya’ll for everything ya’ll have done for me and I appreciate it.”

2. President’s Report

Dr. Joe May, President, LCTCS, presented the President’s Report. The following topics were discussed:

Thank you very much for the opportunity. It has been a great ride."

Supervisor Murphy congratulated Mr. Garrett on his retirement and the world of accomplishments that he has brought to the folks in his area. He added that Mr. Garrett has been in the accreditation process for many years and has pioneered a number of movements and initiatives in the old system and also the modern progressive system enjoyed today. He noted that Mr. Garrett has served as a good will ambassador for all of post-secondary technical education in the State of Louisiana and
he knew of no other person that has traveled around the country that brings more credibility to the things that we all live and serve for. He thanked Mr. Garrett for all of his services and wished him the best for the future.

• Dr. May commented on the budget and stated that action will be taken during today’s meeting. He noted that reductions will be made but they are much less than what was originally proposed.

He added that the University of Louisiana Board and the Southern University Board will act on this exact same plan.
