F. REPORTS

1. Chair of the Board Report

Chair Smith presented the Chair of the Board Report. The following topics were discussed:

- Public Education Review Commission (PERC) Update. Chair Smith distributed to the Board a document listing Recommendations that have been adopted by PERC. He reviewed the Recommendations with the Board. (Document is included in Official Board Packet). Chair Smith commented that the recommendations made so far are consistent with the role, scope and mission of the LCTCS. He noted that the next PERC meeting will be held December 14-15, 2009, and encouraged everyone to attend.

  Supervisor Ogé stated that the Governor’s Office published a 2-page document in support of all the PERC recommendations.

- Board of Regents’ meeting in Alexandria. Chair Smith stated that he attended the Board of Regents’ meeting held in Alexandria at The Learning Center at the old Air Force base. He commented that he was impressed with the operation of the facility and the services provided. He further stated that he was also impressed with the questions posed to the Learning Center by the Board of Regents regarding duplication of services and cost effectiveness.

- Louisiana Delta Community College (LDCC) tour of new facility. Chair Smith stated that he visited the site of the LDCC campus for a tour of the new facilities. He said he was impressed with the facility and stated that the new site will provide great visibility for LDCC and will provide the opportunity for higher education services in the Monroe area.

- Delgado Community College Foundation Christmas Social. Chair Smith stated that he attended the Delgado Community College Foundation Christmas Social at the invitation of Dr. Ron Wright, Chancellor. He noted that Board Supervisor Ogé, and former Board member Lee Giorgio and current LCTCS Foundation member, also attended the function.

- Act 391 Update. Chair Smith stated that the Facilities Corporation for the Act 391 programs have been meeting monthly and will meet today to approve the selection of several architects for several projects.

- Recognition of student Board member Jared Hauge. Chair Smith stated that today is the last Board meeting for Board Supervisor Jared Hauge. Chair Smith congratulated Supervisor Hauge on his
commitment to education in Louisiana and recognized the burden that is placed on him in serving as a full-time student and board member.

Dr. May and Chair Smith acknowledged Supervisor Hauge for his service to the Board with a plaque of appreciation from the Board.

Dr. May stated that Supervisor Hauge is a student at Louisiana Delta Community College and has represented the institution and all students in the state well.

Supervisor Hauge thanked the Board for the leadership skills that have been invested in him while serving on the Board. Supervisor Hauge will be graduating from LDCC and will transfer to University of Louisiana-Monroe.

- Chair Smith thanked Dr. May for hosting the Christmas celebration last evening for members of the Board, LCTCS Chancellors and Regional Directors, LCTCS Executive Staff, members of the Facilities Corporation and LCTCS Foundation. He commented that it was great to see everyone.

- Chair Smith congratulated Dr. May on the birth of his granddaughter, Olive Noel.

- Chair Simth acknowledged Supervisor Dan Packer’s birthday today. Dr. May noted that it is also Board Chair Stevie Smith’s birthday.

- Chair Smith expressed his appreciation, on behalf of the Board of Supervisors, to Baton Rouge Community College for the Christmas decorations in the Board room and extended his wishes to everyone for a happy holiday.

2. President’s Report

Dr. Joe May, System President, presented the President’s Report. The following topics were discussed:

- Southern Association of Colleges and Schools (SACS). Dr. May stated that several campuses had received good news at the recent SACS conference held in Atlanta. He asked for an update from each of the campuses affected:
  - Chancellor Jan Brobst reported that South Louisiana Community College (SLCC) had been placed on probationary sanction in June 2009 and the college was asked to present an additional monitoring report. She stated that the report was provided in September and a follow-up visit to the campus by the SACS team resulted in no findings or recommendations. SACS made their recommendation to the commission and the sanction/probationary status has been removed. Chancellor Brobst thanked the college staff members and administration for their hard work in remedying the sanction.
  - Jimmy Eagan reported that Delgado Community College received SACS approval.
  - Chancellor Luke Robins reported that Louisiana Delta Community College received initial accreditation in June as was requested to provide a follow-up report on General Education assessment. He stated that the assessment report was submitted in September and the report was received with no comment and no additional reports required. He concluded that the initial accreditation has been confirmed for five years.
  - Chancellor Jim Henderson reported that Bossier Parish Community College has received continuance of their accreditation for the next 10 years.
• Board Chair Stevie Smith recognized and welcomed Mr. Billy Montgomery, member of the LCTCS Facilities Corporation, to the meeting.

Supervisor Clark commented that “Coach” has been a great supporter of higher education and the LCTCS.

• Workforce Training - Rapid Response Fund. Dr. May commented that one of the important achievements for the LCTCS over the last several years has been to receive the funding for the Workforce Training Rapid Response Fund. He noted that it is making a huge difference at LCTCS colleges enabling them to respond to the needs of workforce. He noted that one of the funded activities last year involved the natural gas training program between LTC-Region 7 and Bossier Parish Community College (BPCC).

Chancellor Jim Henderson and Regional Director Charles Strong provided an update on the natural gas training program in Northwest Louisiana. Mr. Strong reported that LTC-Region 7 received Rapid Response funds to address the emerging oil and gas needs related to the Haynesville Shale. He stated that Region 7 has developed training at each of the LTC sites associated with natural gas extraction, i.e. welding, heavy equipment operators, roughnecks, roustabouts. He added that customized training is being provided through Halliburton and the Louisiana Oil and Gas Association. He stated that a state-of-the-art well control training simulator has recently been received and the first class completed. He noted that the word has spread and training classes are already full through June 2010.

Chancellor Henderson stated that there is an item on the agenda today requesting approval of the Associate of Applied Science (AAS) in Oil and Gas Production Technology degree at BPCC. He noted that the program is built on two principles: 1) program had to be developed in concert with the oil and gas industry, and 2) build on the program offered at LTC-Region 7, so a student who completes a Certificate of Technical Studies (CTS) can use those credits towards completion of an Associate’s degree at BPCC. He announced that EnCana will be announcing a $100,000.00 donation to BPCC in support of the AAS program. He also noted that Chesapeake has indicated that they will be in Bossier with a solid presence for at least 29 years. He stated that the Rapid Response Fund was the catalyst for getting this program started.

Chancellor Henderson also spoke on the Innovative Nursing Program that will be provided at BPCC and was funded under the original Rapid Response Fund. He stated that this program will take LPNs and provide real practical solutions to become a full registered nurse. The program will incorporate on-line instruction, night-time and weekend instruction, and non-traditional clinical hours and will be a model for innovation in helping a working person become a registered nurse.

Chair Smith noted that an item on the agenda today requests approval from BPCC to begin an Oil and Gas Technology program. He stated that approval was also recently granted to Fletcher Technical Community College for a similar program and he stressed the importance of coordinating these programs.

• Workforce Training Rapid Response Fund – Dr. Monty Sullivan

Dr. Sullivan reported on the Rapid Response funds for 2010 and how these funds will be utilized. He stated that the proposals are being reviewed by the Workforce Commission, Department of Economic Development and the Board of Regents staff. He noted that the awards will be
presented to the institutions with the requirement that there be collaboration between institutions that are proposing similar programs. He added that LCTCS Online will be leveraged as much as possible in the development of curriculum and in the broad distribution of the curriculum. He stated that the funds will be distributed in late December.

Dr. Sullivan further stated that another point of focus will be non-credit instruction. He mentioned that the Workforce Commission has questioned the possibility of providing training for TWIC cards. He noted it would be helpful to have this training at LCTCS institutions and noted that it will create a centralized repository of the curriculum to be delivered readily at any LCTCS institution.

- Articulation and Transfer Council

Dr. Sullivan provided an update on the progress of the Articulation and Transfer Council. He stated that a single course list has been created of all LCTCS courses and a review is being conducted to align the course name, number and title to ensure consistency across LCTCS institutions and omit duplications. The Program Inventory List has been completed and the program deletion requests being submitted to the Board for approval today are a result of this effort.

Dr. Sullivan stated that the Articulation and Transfer Council is scheduled to meet on December 17th. He noted that the expectation is to have a common consistent 60-hour Associate Degree program established by January 31st. He stated that the remainder of the work is due to be completed by March 31st.

- Career Diploma Update

Dr. Sullivan stated that the High School Redesign Committee is meeting today to review the final guidelines proposed by the Department of Education staff. He noted that the work done in reviewing and alignment of LCTCS career and technical education courses, and the course offerings of the Department of Education, has created a significant partnership between the LCTCS and the Department of Education. He stated that the High School Redesign Committee will hear a recommendation today to require students in the career diploma track to have the exact same assessment requirements as those students in the traditional diploma. He commented that this recommendation will likely pass.

- Act 391 Update

Dr. May stated that it is unprecedented to have this many facility related projects ongoing at any one time. He noted that there are a total of 23 different projects and today’s presentation will focus on the first eight major initial undertakings (Phase 1).

Jan Jackson facilitated a presentation providing an update on Act 391 projects. She reviewed the projects by Phase 1, 2 and 3, and by projects that require site acquisitions and projects for existing campus improvements.
Presentations were made by the campus representatives listed on their respective project(s):

- Travis Lavigne, Chancellor, Fletcher Technical Community College – land and design of new campus in Houma - $4,000,000
- Will Wainwright, Regional Director, Florida Parishes Area Region 9 – land and design for new Florida Parishes Campus in Greensburg - $300,000
- Charles Strong, Regional Director, Northwest Area Region 7 – Northwest campus in Minden - $14,700,000
- Kay McDaniel, Regional Director, Capital Area Region 2 – Westside Campus in Plaquemine - $3,150,000
- Mervin Birdwell, Regional Director, Central Area Region 6 – new building for Shelby M. Jackson Campus in Ferriday - $4,725,000
- Greg Garrett, Regional Director, South Central Region 3 – new building for Young Memorial Campus in Morgan City - $5,460,000
- Phyllis Dupuis, Regional Director, Acadiana Region 4 – new buildings for Gulf Area Campus in Abbeville - $6,300,000
- Tommy Warner, Chancellor, Nunez Community College – Improvements to hurricane damaged buildings in Chalmette - $1,618,162

Dr. Luke Robins, Chancellor, Louisiana Delta Community College (LDCC), provided an update on the progress of the new LDCC campus. He noted that the expectation is the project will be 70% complete at the end of December.

- Regional Meeting Update – Dr. May thanked everyone for their attendance and support at the regional advocacy meetings being conducted around the state, most recently in Monroe and Shreveport. He stated that the response has been tremendous.

- Adult Education – Dr. May commented on Governor Jindal’s press conference held in Marksville last week. He stated that the Governor announced several initiatives related to K-12 education. He noted that the Governor’s recommendation that adult education be moved from the Department of Education (BESE) to the LCTCS will substantially impact technical and community colleges across the state. He added that a plan is being developed to include a new name, and a business model of how the program will be implemented around the state. He further stated that the goal is to create 1,000+ locations around the state to deliver adult education that will be close to where people live and work. He added that he hopes to present a plan to the Board at the February 2010 board meeting.
