G. REPORTS

1. Chair of the Board Report

Chair Mellington presented the Chair of the Board Report. The following topics were discussed:

- Attended South Louisiana Community College (SLCC), and the Louisiana Technical College (LTC) – Lafayette Campus graduations. Encouraged board members to attend LCTCS campus graduation ceremonies in their region/area if their schedule permits.
2. President’s Report

Dr. Joe May presented the President’s Report. The following topics were discussed:

- Thanked Allen Brown and Internal Audit staff for the tremendous job that they are doing for the LCTCS.

- Referenced article from The Chronicle related to gas prices and the impact on students and the resulting hardship.

- Update on legislature. Dr. May provided an update on the actions that were taken during the legislative session related to the LCTCS.

  - Senate Bill 612: Created a new Workforce and Investment Council and the reorganization of the Department of Labor, changing it to the Louisiana Workforce Commission. A key component of this bill is to create a forty-one (41) member council whose charge is to look at regional and statewide workforce needs and forward that information, with the LCTCS and the Board of Regents (BoR), to help align funding with workforce priorities across the state. This bill represents step 1 of addressing the workforce needs of the State.

  - House Bill 1018: This bill represents step 2 of addressing the workforce needs of the State. It will create a new Rapid Response Training Fund of $10 million that will be a permanently replenished fund. Once the information is received from the Workforce Investment Council and work with the colleges to review their local markets is complete, dollars will be deployed to help jumpstart new programs, expand existing programs, etc., to align with the market needs by region and across the state as a whole. The information will be reviewed by a five member panel to include: Dr. Joe May, the Commissioner of Higher Education, the Secretary of Labor, Secretary of Economic Development and the Chair of the Louisiana Workforce Investment Council. This item will be discussed further at the upcoming planning sessions with the chancellors, regional directors and board members.

  - Two concurrent resolutions, (1 from the House and 1 from the Senate), involving the overhaul of the funding formula have proceeded through the process. The Board of Regents’ staff has been working on this issue.

  - Bill to provide authority to all management boards to increase tuition, over the next 4 years, by 3-5%, depending on the current standing of the institution in relation to the southern regional average. All LCTCS colleges will be eligible for a 4-5% tuition increase. The bill does not increase tuition, but allows the System the authority to review and improve tuition increases. This will not be instituted in the Fall, but rather next Spring or Fall.

  - Adult Education is currently housed under the Board of Elementary and Secondary Education (BESE). Studies have recommended that this service be moved under the LCTCS. Representative Trahan, Chair, House Education Committee, has submitted a House Concurrent Resolution requesting that this issue be reviewed in conjunction with the LCTCS and BESE and conduct a study that would examine the possibility of moving adult education under the LCTCS. The study will be conducted next year.

  - Senate Bill 718 regarding financial disclosure: Bill by Senator Martini to move a number of boards and commissions currently in Tier II. Tier II is the same level of financial disclosure as members of the legislature. The bill successfully came out of committee yesterday. Changes to this bill are pending.
• No Board meeting will be held in July. There will be a planning workshop with regional directors and chancellors, July 8-9. The August Board meeting and planning workshop will take place August 12-14. Both the July and August planning workshops, as well as the August Board meeting, will be held at Cypress Bend Conference Center in Many, LA.

• Cooperative Endeavor Agreements – Dr. Luke Robins, Chancellor, Louisiana Delta Community College (LDCC) addressed the Board and provided an update on the status of the Cooperative Endeavor Agreement for LDCC. Dr. Robins reported that the property for the new campus has closed and has moved over to the state’s control. A topographical survey is being conducted and Facilities, Planning and Control are working on minor issues that exist. A design build team has been selected and the Facilities Corporation, along with the advisory group, will meet today to finalize plans. He added that the lease has been completed and possession has been taken of the East Gate facility which will provide 20,000 square feet of additional space for the campus. Faculty has been moved to this facility and 90 sections of coursework will be offered there in the fall.

Dr. May thanked Dr. Robins, Jan Jackson and Supervisor Barham for all their efforts in moving this project forward.

• SOWELA Technical Community College (SOWELA) Cooperatorative Endeavor Agreement continues to move forward.

On motion of Supervisor Johnson, seconded by Supervisor Barham, the Board voted to approve the selections of the Nominating Committee for Board Offices for 2008-2009. The motion carried.

Supervisor Franklin commented that, “. . . I am looking forward to serving as first vice chair. I have served on the board now for 5 years and I have learned a lot and I have enjoyed all our board members. I enjoy the system and serving the students, that's what this is all about. . .”

Supervisor Smith stated that he is, “. . . very much looking forward to continuing my service on this board . . . it has been a tremendous learning experience for me . . . there is a legacy of leadership on this board, some of which are still with us, and some of which are no longer with us . . . I have learned a lot from each of these people. One of the phrases that I have heard over the years about our System, to describe our System, and I want to re-emphasize it to everyone, that we are trying to build a ‘world-class’ System. We are trying to build a System to be envied by other folks. . . I want to continue to build a ‘world-class’ system.”

- Transition of System leadership occurred with the hiring of Dr. Joe May.
- Continuing recovery from Hurricane Katrina
- Increase in funding for System
- Generational investment in facilities

Chair Mellington commented that, “. . . it has been a pleasure serving as Board Chair. In 1999, I never would have imagined that I would be sitting in this chair at this point. But, it has been an honor to serve. . . we have had three System presidents, two System presidents for sure, that told us that this is the best board in the State. . . we have also had comments that they feel like this is the best board in the country in the community and technical college system, and I cannot deny that and it is because all of the people that are sitting at this table. We have been extremely fortunate in the people that we have had on our board, and the people that have come through here and since left. We work together as a team. We understand what our mission is and what our purpose is, and that purpose is to make this system world-class. . . I am going to cherish the times that I have served as chair and been a member of this board. We have seen the worst and we have seen the best. And, believe me, I want to keep looking at the best and I think that we have gotten to the point now where that is all we are going to see is the best. I want to thank all the guys in our System. You guys are tremendous. The resource that we got in all of you is second to none. We still have a ways to go, but I know that you guys are going to help us get there.”
