Dr. Savoie and Dr. Jan Brobst, Chancellor, South Louisiana Community College (SLCC) discussed the articulation/cross enrollment agreements between ULL and SLCC and provided specifics on each of the programs.

Dr. Brobst stated that 2 + 2 programs between ULL and SLCC provide an opportunity for a seamless education experience for students. She noted that the programs are fully articulated and are reviewed annually. She added that course to course transfer agreements are also available.

Dr. Brobst provided an update on the Early College Academy. A “yearbook” of the program was distributed. She noted that students participating in the Early College Academy program will receive both a high school diploma and an associate degree upon completion of the program.

Dr. Savoie added that students graduating from the Early College Academy will be accepted at ULL as a college junior. He noted that they are currently working on a transfer scholarship program (approximately $1,000), for students who complete an Associate degree with a certain GPA. He further stated that the university is considering expanding access of ULL campus facilities for SLCC and LTC students.

- Enrollment Report. Dr. May presented the preliminary credit enrollment figures for fall 2009. He noted that enrollment has increased even in light of budget cuts. He stated that overall a 13.2% increase has been realized for the LCTCS. He congratulated LCTCS chancellors, regional directors and deans for this accomplishment. Current enrollment stands at approximately 64,000.

Dr. May stated that he will meet with Angele Davis, Commissioner of Administration, on Friday to discuss moving the process forward. He added that the bids have been collected and input has been received from faculty/staff/administrators. A preferred vendor will be selected and the negotiation process will begin on the contract. Dr. May stated that a recommendation will be presented to the Board for review and consideration, possibly by November 2009. He added that there are 4 possible vendors.

Supervisor Packer questioned whether the MIS/IT Committee of the LCTCS Board would meet to discuss this issue prior to Full Board consideration.

Dr. Warner stated that the Arts & Sciences building is 99% complete and they will have heat in the building this year for the first time, five years after Hurricane Katrina. He provided an update on the remaining buildings on the campus.

  Jan Jackson provided an update on the facilities of Delgado Community College, in Dr. Ron Wright’s absence. She stated that several buildings are complete – Isaac Delgado Hall, the Technology Building, Frances Cook building, Student Life Center and book store. She noted that the library (60,000 sq. ft.), is still gutted and another 30,000 square foot classroom building has not been touched since Hurricane Katrina.

  Supervisor Packer voiced his concern over the time that it is taking for FEMA to act on the buildings that were damaged/destroyed and questioned whether additional efforts are needed to contact legislators and speak with Homeland Security, White House advisors, etc., to request assistance.

  Chancellor Warner stated that he has been in contact with numerous government officials to ask for assistance. He stated that he spoke with Madame Secretary Politano regarding the urgency of getting the buildings back on line for student use.
