

LOUISIANA COMMUNITY & TECHNICAL COLLEGE SYSTEM
Policy # 4.005

Title: USE OF LCTCS FACILITIES AND PREMISES

Authority: Board Action

Original Adoption: 03/13/02

Effective Date: 03/13/02

Last Revision: Initial

I. Purpose

- A. To state the policy of LCTCS on the use of facilities and premises within its care and custody.

II. Policy

- A. Facilities and premises include buildings and property belonging to or in the care and custody of the Board of Supervisors of LCTCS. These facilities and premises are established and reserved for use in accomplishing the instructional, research, and public service missions of the System, which must always be given first priority in the assignment of facilities and premises for use. Accordingly, scheduling of facilities and premises use should not preempt the use of facilities required for teaching, research, and other academic activities.

Departments and divisions of the various campuses in the LCTCS, recognized student organizations, affiliated organizations as defined by the regulations of the Board of Supervisors, or groups and organizations not otherwise affiliated with the System may be granted permission to use its designated facilities and premises when such does not interfere with the accomplishment of campus missions and programs, either specific or general, and is in accordance with established conditions which govern such use.

It is contrary to this policy for decisions regarding the use of designated System facilities and premises to deny the exercise of constitutionally protected rights, to discriminate unlawfully, or to knowingly result in unfair competition with private businesses; however, in all cases in which its facilities and premises may be used, each campus has the right to apply or formulate reasonable conditions as to the time, place, and manner in which such use may take place.

III. Priority in Facility Use

A. Priority in the use of facilities and premises is established as follows:

1. Departments and Divisions of the institutions within the System in the conduct of assigned missions and programs.
2. Recognized student organizations, organizations of faculty and staff, and LCTCS affiliated organizations for programs and activities conducted pursuant to the purposes of these organizations.
3. Educational, religious, and non-commercial organizations not affiliated with LCTCS may be granted permission to use its facilities and premises to conduct educational, informational, cultural, or religious programs for the benefit of their members or the community and the general public. Programs of these organizations for the System community and the general public must be sponsored by a LCTCS administrative unit or a recognized student or campus organization with a logical relationship to the sponsored program and which must have an active and meaningful involvement with the management of the program. For programs which are educational in nature and offered to the community and/or the general public, sponsorship must be by a unit of the System. If an admission fee is charged to such events, it must be on a ticketed or "pay-at-the-door" basis only. If funds are to be solicited otherwise, the programs will be considered under provisions relating to charitable fund raising.
4. Other individuals or organizations not associated with a System institution.

IV. Programming Departments

A. Certain departments and other components of the System are specifically charged with the development and presentation of educational, cultural, recreational, athletic, and other programs for the benefit of students, employees and the general public within facilities and premises assigned to or available to those programming units.

V. Athletic Facilities

A. Athletic facilities including intercollegiate sports, recreational and leisure sports are subject to the following special provisions:

1. Use of athletic facilities may be permitted by non-LCTCS groups for athletic events only with the sponsorship of an LCTCS administrative unit or recognized student or campus organization as provided for above.

VI. Incidental Use of Facilities and Premises

- A. Although, the System has no intent to knowingly permit the use of its facilities and premises so as to engage in unfair competition with private businesses, this policy recognizes that for certain kinds of activities and programs, the size, location, and specialized nature of some LCTCS facilities may make them the most suitable available facilities for use by individuals and groups not otherwise associated with the System. Under such circumstances and with the requirement that such use may not interfere with or hamper the conducting of System programs and activities, such incidental use may be approved by written agreement executed through the appropriate campus official. Such use might be based upon facility size or might be based upon the appearance or configuration of facilities and premises that might be used in filming or other purposes.

VII. Fund Raising for Charitable Purposes

- A. With the sponsorship of an administrative unit of a campus or a recognized organization of students or employees, or an affiliated organization, facilities and premises may be used by a tax-exempt, charitable organization for the purpose of raising funds for charitable purposes. In all such cases, the charitable organization must conduct the activity itself with active and meaningful LCTCS sponsor involvement and may not contract with a third party for the conduct of the fund raising event nor may the event be conducted in such a way as to provide private businesses with opportunities to engage in commercial solicitation within System facilities and premises. Normally, such events are limited to one for each organization during each year and federal-tax exempt status is required.

VIII. Relationship with Non-LCTCS Entities

- A. In granting the use of its premises and facilities to non-LCTCS entities, LCTCS establishes certain conditions necessary to define its relationship with the entity using its facilities.
 - 1. No agency or joint venture relationship may exist.
 - 2. Written indemnification against damages arising from or in the course of facility users use of its facilities and premises is required. The System reserves the right to require certification as proof of insurance. In the absence of specific written agreement to the contrary, no license or other approval is granted for the use of the name of any LCTCS campus or any other word or images associated with the System for purposes of direct or indirect endorsement or for any use other than to incidentally denote the location of an activity on its premises.

3. In the absence of specific written authorization to the contrary, approval for the use of System facilities and premises grants no right for users of its premises and facilities to enter into third party agreements, which may involve the use of its facilities and premises.

IX. Facility Use Fees

- A. Use of System facilities is granted with the requirement that such use be at no direct cost to the System. Accordingly, reimbursement for services provided and other costs incurred may be required as a condition of using System facilities and premises. In addition, if the facility to be used is one in which all or a portion, of its operating costs are derived from use charges, the normal use charges shall be applied. If an admission charge is collected or funds are solicited, an additional fee may be assessed.

X. Administration

Authority for decisions regarding the use of System facilities and premises under this policy is vested in the President or Chancellor; however, review and action on routine requests by students and student organizations is assigned to the campus Chancellor or his designee.
