# LOUISIANA COMMUNITY & TECHNICAL COLLEGE SYSTEM

TO: Dr. Monty Sullivan

LCTCS President

THROUGH: Dr. Paul Carlsen

Chief Content Officer

**FROM:** Dr. René Cintrón

Executive Director of Education and Research

SUBJECT: Program Addition and Terminations at Baton Rouge Community

College

**DATE:** 03/30/2017

# **FOR BOARD ACTION:**

**Recommendation:** Staff recommends that the Board approve the program addition and terminations listed below.

# **Program Addition**

1. Technical Competency Area (TCA) in Sterile Processing (CIP 51.1012) – 3 STARS

# **Program Terminations**

- 2. Technical Diploma (TD) in Barber-Styling (CIP 12.0402) 0 STARS
- 3. Technical Diploma (TD) in Office Administration (CIP 52.0401) 3 STARS

**Background:** The Sterile Processing TCA prepares students to meet workforce needs for sterile processing technicians in acute care and ambulatory hospital settings. Industry partners, such as Our Lady of the Lake Regional Medical Center, have expressed need for already trained technicians to support the work of multiple central supply/sterile processing departments in the area. The curriculum is based on standards of and recommendations of the Association for the Advancement of Medical Instrumentation. Students who successfully complete the curriculum will qualify to sit for the International Sterile Processing Department Technician Certification Exam administers by the Certification Board of Sterile Processing and Distribution.

Both programs being terminated had low enrollment and few program completers. The teach out plan for Barber Styling and for Office Administration, submitted in Summer 2015 to the Council on Occupational Education (COE) while under Capital Area Technical College, were completed in Fall 2016 and Spring 2016, respectively.

**Fiscal Impact:** There are currently two full-time faculty members and one adjunct. BRCC anticipates the need for one additional full-time faculty member to support this program.

There are no anticipated expenditures associated with the termination of these programs.

**History of Prior Actions:** There is a history of adding and terminating programs due to student and workforce needs.

**Benefits to the System:** The addition and terminations will allow BRCC to better meet student and workforce needs in other areas.

Approved for Recommendation to the Board

Dr. Monty Sullivan

# 201 Community College Drive Baton Rouge, Louisiana 70806

March 20, 2017

Board of Supervisors The Louisiana Community and Technical College System 265 South Foster Drive Baton Rouge, Louisiana 70806

Attention:

Paul E. Carlsen, Ph.D., LCTCS Chief Content Officer

René Cintrón, Ph.D., LCTCS Executive Director, Education and Research

Dear Drs. Carlsen and Cintrón:

Baton Rouge Community College (BRCC) requests the approval of the Louisiana Community and Technical College System (LCTCS) Board of Supervisors to offer a new credential, described below.

# **Program Addition:**

Sterile Processing, Technical Competency Area (TCA) - 3 Stars. CIP Code 51.1012

The Sterile Processing TCA prepares students to meet the workforce need for sterile processing technicians in acute care and ambulatory hospital settings. The curriculum is based on the standards of and recommendations of the Association for the Advancement of Medical Instrumentation (AAMI): students who successfully complete the curriculum will qualify to sit for the International Sterile Processing Department Technician Certification (CSPDT) Exam administered by the Certification Board for Sterile Processing and Distribution (CBSPD). The certification will likely be attractive to students in the Surgical Technology Associate of Science as a one-course, single semester add-on, as well as to individuals who would like to work in a health care setting without a multi-semester commitment to a program.

A description of the course required for completion of the TCA is described on the following page and is followed by the LCTCS form for reporting curriculum actions. Please let me know if you need additional information. Thank you for your consideration of this request.

Sincerely

Larissa Littleton-Steib, Ph.D.

Chancellor

Cc: Margaret McMichael, Ph.D., Director of Curriculum and Articulation

March 20, 2017

# New Course for the Sterile Processing Technical Competency Area (TCA), CIP 51.1012

<u>HLSC 1204, Sterile Processing Basics.</u> CIP Code: 51.1012. Lecture hours 2, Lab hours 8, Credit hours 4. Prerequisites: Department approval and eligibility for MSTH 1113 and ENGL 1013. Co-requisites: None. Suggested Enrollment Cap: 15. Effective Spring 2017.

<u>Course Description</u>: Prepares students to become safe and competent Sterile Processing Technicians (SPT) in a variety of healthcare facilities. Covers the disinfection, preparation, processing, storage, and issuing of both sterile and non-sterile supplies and equipment for patient care, the operation of sterilization units, and procedures for monitoring the effectiveness of the sterilization process. The course prepares students for the Sterilization Processing and Distribution Technician Certification Exam for becoming a Central Sterilization Processing and Distribution Technicians. This course requires a lab fee.

Note: Lab fee is \$50.00 per student and covers the cost of disposable items worn by students (hats, masks) and single-use implements and supplies (instrument wraps, instrument guards, instrument pouches). The course will be required for completion of a proposed program in Sterile Processing.

CA) and to award the associated his is a one course, single term program arning experience in knowledge, skills, force needs for sterile processing ospital settings. The curriculum is based the Association for the Advancement of who successfully complete the curriculum Processing Department Technician

REASON/JUSTIFICATION FOR THE PROPOSED CHANGE (Include support such as four-year university agreements, industry demand, advisory board information, etc.)

Following a recent needs assessment, Our Lady of the Lake Regional Medical Center (OLOL-RMC) reached out to BRCC to request assistance in preparing students for employment as

sterile processing technicians (also known as medical equipment preparers). OLOL-RMC supports multiple central supply/sterile processing departments at its main campus on Essen Lane, multiple outlying ambulatory surgical centers, and is preparing to staff a new department with the anticipated Children's Hospital completion in 2018. There will be a need to hire more sterile technicians with the completion of medical center expansions.

The current trend in central supply/sterile processing departments involves extensive on-the-job training of employees. The cost of this trend, in both time and money, would be spared by hiring individuals with an educational foundation and national certification as evidence of competency. In addition, hiring educated and certified sterile processing technicians is likely to improve the prevention of healthcare facility-acquired infections. An educational program in central service and sterile processing would be beneficial to the healthcare and public communities.

BRCC has responded to OLOL-RMC by proposing the one-course, one term Sterile Processing Technician TCA, which prepares students for the Sterilization Processing and Distribution Technician Certification Exam offered by the Certification Board for Sterilization Processing and Distribution. Individuals passing the exam earn the title of Central Sterilization Processing and Distribution Technician (CSPDT). Currently, hospitals and medical facilities in Louisiana do not require this certification for hiring, but this requirement is in place in four states (New Jersey, New York, Connecticut, and Tennessee) and is being considered in others (International Association of Healthcare Central Service Materiel Management, Legislative Map. Accessed November 2016 at <a href="https://www.iahcsmm.org/advocacy/legislative-map.html">https://www.iahcsmm.org/advocacy/legislative-map.html</a>, attached). Students who complete the Sterile Processing Course and successfully pass the certification exam can be eligible for these jobs in just one semester.

The National Bureau of Labor Statistics (BLS) cites the employment of Central Sterile Supply Technicians is expected to have an average growth of 14% between 2014-2024 and have median annual wage of \$33,330 (Bureau of Labor Statistics, U.S. Department of Labor, Occupational Outlook Handbook, 2016-17 Edition, Medical Equipment Preparers, on the Internet at <a href="http://www.bls.gov/oes/current/oes319093.htm#nat">http://www.bls.gov/oes/current/oes319093.htm#nat</a>, attached, October 2016).

The Louisiana Workforce Commission gives this occupation a three (3) star rating with a projected growth rate of 1.2%, with an annual average wage of \$27,273 (Louisiana Workforce Commission data, attached, as of October 2016). Contrary to the national outlook, the long term projections of the Louisiana Workforce Commission for 2014-2024 anticipates few openings for Sterile Processing Technicians in the Baton Rouge area (Regional Labor Market 2). This is very likely due to the practice by medical centers of recruiting and training current employees from other departments rather than by hiring outside of their ranks. BRCC is confident that the expressed needs of the medical community, and by extension, of those served by the hospitals and clinics, will be met with the proposed program (see attached letter of support from OLOL-RMC).

The Sterile Processing TCA is consistent with BRCC's mission "to identify and meet the educational and workforce needs of the community through innovative, assessable, and dynamic programs", with goals of the LCTCS "Our Louisiana 2020" initiative (double the number of students served, quadruple partnerships with business and industry), and with the first goal of the Board of Regents' Master Plan for Public Postsecondary Education in Louisiana (increase the educational attainment of the State's adult population to the Southern Regional Education Board (SREB) States' average by 2025).

# ANTICIPATED ENROLLMENT:

Describe Process for Attaining & Estimating Enrollment: The Associate of Science degree in Nursing program at Baton Rouge Community College currently admits the top 60 out of 200-300 applicants annually. The Diagnostic Medical Sonography program admits the top 10-12 applicants to its program each spring from a pool of 30-40. The Surgical Technology Program admits the top 15 out of 25-30 applicants. Students who qualify for nursing or allied health programs, but are not admitted due to limited space or missing one or two pre-requisite courses are an excellent pool for the Certificate of Sterile Processing Program. The Program will also appeal to students who need additional coursework to maintain a full time status while waiting to apply to alternate programs. Possession of certification as a Central Sterilization Processing and Distribution Technician (CSPDT) provides an opportunity for students to work in a healthcare setting while pursuing additional educational goals in healthcare.

Type/Name of Program Accreditation, Licensure or Certification Required:			

# DESCRIBE IMPLEMENTATION COSTS (Include Faculty, Facilities, Library Resources, etc.)

Faculty: 1 additional 9 month faculty member (\$40,000 + benefits = \$58,000)

BRCC anticipates the need for one additional full-time faculty member to support this program. The projections found in the Surgical Technology Programs Schedule of Faculty Responsibilities form (Exhibit A\*) and the Surgical Technology Program Instructional Workload Form (Exhibit B\*) reflect two current faculty members of the Surgical Technology Program and one adjunct. Hiring one additional full-time faculty member will not only provide classroom and lab instruction for the sterile processing program, but also for the surgical technology program, replacing the need for the adjunct each spring semester. Direct clinical supervision is required for both the surgical technology and sterile processing programs for each clinical site that accepts students during each Fall and Spring semesters. BRCC has established clinical sites for students in the College's Surgical Technology Associate of Science (AS) program to receive practical training. Direct supervision of BRCC students by a BRCC faculty member is required at each of the clinical sites. Because sterile processing is critical for surgical procedures, there is a logical and well-established relationship in hospitals and clinics between sterile processing departments and surgical departments. As a result of this relationship, BRCC anticipates being able to provide practical training for students in both programs, under the supervision of one surgical technology faculty member at each site.

\* Attached

Facilities: \$0

No additional facilities or special buildings will be needed for the proposed program.

Baton Rouge Community College, Nursing and Allied Health Division located at the Frazier Site, 555 Julia Street in Baton Rouge, has sufficient space to support the proposed program's faculty and student needs. Lecture and lab facilities, offices, etc. will be provided at the BRCC Frazier Site. Roughly 2000 square feet of space has been identified for use as a surgical skills lab. The lab is equipped with surgical technology equipment and instrumentation donated by Our Lady of the Lake College. Additional equipment and supplies will be provided by BRCC as needed and is eligible for purchases through the Carl Perkins Grant.

The lab is currently only used by students enrolled in the Surgical Technology program two (2) days a week during the Spring semesters and four (4) days a week during the Summer semesters. The Sterile Processing Program will use the surgical technology classroom and a section of the surgical skills lab when not in use by the surgical technology program, making more efficient use of the space. The surgical skills lab is already set up and used for sterile processing by surgical technology students which makes it ideal for expanding the time it is used. Additional classroom space and computer labs are available at the Mid-City campus in the Governors, Louisiana and Cypress buildings as well. In addition, BRCC main campus offers a full range of student support and student resources.

Library Resources: \$0

No additional library resources will be needed.

# PROGRAM CURRICULUM: See proposed Program of Study for the Sterile Processing Technical Competency Area (TCA), attached

(Use the template below or insert separate attachment; all modifications should include the OLD and NEW curriculum with changes appropriately noted so that it is visually clear what has been added, deleted and/or changed)

SIGNATURES:		
	College Chief Academic Officer	Date
	A Ryert	3/20/11
	College Chief Executive Officer	Date

# Sterile Processing (Technical Competency Area)

The Sterile Processing Technical Competency Area (TCA) is a one semester 4 credit-hour program which provides students with an integrated learning experience in knowledge, skills, values, and competencies to meet the workforce needs for sterile processing technicians in acute care and ambulatory hospital settings. The curriculum is based on the standards and recommendations of the Association for the Advancement of Medical Instrumentation (AAMI). Students who successfully complete the curriculum will qualify to sit for the International Sterile Processing Department Technician Certification (CSPDT) Exam administered by the Certification Board for Sterile Processing and Distribution (CBSPD).

#### **Admission Criteria**

Applicants must:

- Have a high school diploma or GED and be admitted to BRCC
- Have an entrance test score eligible to take ENGL 1013 and MATH 1113/1213
- \*Pass a Drug Screen
- \*Pass a Criminal Background Check

# **Application Process**

The application for admission to the Sterile Processing TCA is available on the BRCC website. Sterile Processing Basics (HLSC 1204, see below) is offered every fall and spring semester. Applications will be processed and students will be accepted on a first come first serve basis until the class is full.

#### **Admission Process**

Students admitted to the Sterile Processing program will receive additional instructions regarding program requirements that include but are not limited to: submission of personal health history, results of a physical examination, a TB skin test and various immunizations as required by the clinical affiliates. Costs for all requirements are borne by the student.

# **Program of Study**

Course		<b>Credit Hours</b>
HLSC 1204	Sterile Processing Basics	4
	Total Credit Hours for TCA:	4

# **Criminal Background Check**

Applicants to the Sterile Processing Program must pass a criminal background check, with all costs incurred by the student. Applicants who have been charged with, pled guilty or *nolo contendere* to, been convicted of, or committed a criminal offense that involves a crime of violence or distribution of drugs may not be allowed to complete the practicum component of the program.

For more information, contact the Division of Nursing and Allied Health at 225-216-8044 or the Division of Nursing and Allied Health Advisor at 225-216-8879.

<sup>\*</sup>Due to the practicum portion of the Sterile Processing Basics Course

March, 15, 2017

The Board of Supervisors Louisiana's Community and Technical College System 1212 Main Street Room 12123 Baton Rouge, LA 70716

To LCTCS Board of Supervisors:

As the Nursing Manager of Our Lady of the Lake Regional Medical Center Sterile Processing Department, I am writing this letter of support for the Technical Competency Area in Sterile Processing. The Sterile Processing Technical Competency Area (TCA) is being submitted by Baton Rouge Community College as a one course, single term program to provide students with an integrated learning experience in knowledge, skills, values, and competencies to meet workforce needs for sterile processing technicians.

The goals of the Sterile Processing TCA is to prepare qualified individuals to become safe and competent Sterile Processing Technicians in a variety of healthcare facilities. The recent history of Baton Rouge Community College Allied Health department has demonstrated a commitment to developing high quality programs based on educational research and providing the support necessary to successfully implement these programs.

Research has consistently proven that individuals who obtain a certification in sterile processing possess the required competency to ensure patient safety through infection control. Due to a lack of educational programs currently available Sterile Processing Department (SPD) managers have been forced to hire individuals with little knowledge of biomedical instrumentation or infection control resulting in a large number of hours to train them on the job. The results of the formal Sterile Processing program will be beneficial in providing educated workforce for our community.

As the Nursing Manager of Our Lady of the Lake Regional Medical Center Sterile Processing Department, I highly support BRCC's Sterile Processing Program and believe the implementation of this program will provide individuals with the required education to work in a hospital, surgical center, or other institution that uses a central supply department throughout our community.

Respectfully.

J. Gabriel Poché, Jr., MSN, BSN | Nurse Manager, SPD

Star Rating ***	

Stars represent occupational outlook and wages. Five star occupations have the best outlook and pay the highest wages. Star ratings are being revised to reflect changes and wages and long term projections and will be added once the revisions are complete.

http://online.onetcenter.org/ <sup>2</sup> Unique code assigned to each occupation describing knowledge, skills and

abilities necessary to perform a variety of activities and tasks.

Title of the occupation.

<sup>4</sup> 2014 Annual Average employment from employer payroll files, with estimates for self-employed and unpaid fai

2024 Projected employment estimate includes new jobs and replacement needs of employers.

Projected 10 year growth or decline in an occupation.

Number of projected new jobs for the occupation.

Number of job needed to fill those workers retiring or leaving an occupation.

y Annual job openings as a function of replacement demand (retirements + turnover) + new growth.

<sup>10</sup> 2015 Annual average wage for all workers in this occupation.

<sup>11</sup> Average hourly wage for lowest 10 percent of workers in this occupation.

<sup>12</sup> Average annual wage for lowest 10 percent of workers in this occupation.

<sup>13</sup> Average hourly wage for highest 10 percent of workers in this occupation.

14 Annual average wage of highest 10 percent of workers in this occupation.

15 Most Significant Source of Education- Researched and designated by the Bureau of Labor Statistics (BLS)

Long-Term Tng. & Exp. = Long-Term training and experience (more than 12 months of on-the-job training)

Mod.-term Tng. & Exp. = Moderate-term training and experience (1 to 12 months of combined on-the-job Short-term Tng. & Exp. = Short-term training and experience (up to 1 month of on-the-job experience)

<sup>16</sup> Louisiana Liceusing Guide reference describing those occupations regulated by state boards, commissions or agencies.

NA - Wages from the 2015 Occupational Wage Survey were not available because of confidentiality, or only annual wages http://www.laworks.net/Downloads/LMI/licensingguide.pdf

are available for most of the education related occupations.

Based on the projected number of students discussed in the proposal and contact hours required to carry out the new course, the projected faculty needs for the first five years of the proposed program is depicted below. These projections reflect two current faculty members of the Surgical Technology Program and one additional nine month employee who can provide classroom and lab instruction as 1 adjunct for the surgical technology program. Direct clinical supervision is required for both the surgical technology program and the sterile processing program for each clinical site that accepts students during each Fall and Spring semesters. Due to the close relationship between sterile processing departments and surgical services, it is feasible that surgical technology faculty can provide dual supervisory duties between the two departments in order to expand the number of clinical sites available to offer practical education for the sterile for the sterile processing certificate program as well as support the semester overloads being covered by current 12 month faculty as well processing program as well as the surgical technology program.

# About May 2015 National, State, Metropolitan, and Nonmetropolitan Area Occupational Employment and Wage Estimates

These estimates are calculated with data collected from employers in all industry sectors, all metropolitan and nonmetropolitan areas, and all states and the District of Columbia. The top employment and wage figures are provided above. The complete list is available in the downloadable XLS files.

The percentile wage estimate is the value of a wage below which a certain percent of workers fall. The median wage is the 50th percentile wage estimate--50 percent of workers earn less than the median and 50 percent of workers earn more than the median. More about percentile wages.

- (1) Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately. Estimates do not include self-employed workers.
- (2) Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly wage published, the annual wage has been directly calculated from the reported survey data.
- (3) The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.
- (7) The value is less than .005 percent of industry employment.
- (8) Estimate not released.
- (9) The location quotient is the ratio of the area concentration of occupational employment to the national average concentration. A location quotient greater than one indicates the occupation has a higher share of employment than average, and a location quotient less than one indicates the occupation is less prevalent in the area than average.

Although employment for hundreds of occupations is covered in detail in the *Occupational Outlook Handbook*, this page presents summary data on additional occupations for which employment projections are prepared but detailed occupational information is not developed. For each occupation, the <u>Occupational Information Network</u> (O\*NET) code, the occupational definition, 2014 employment, the May 2015 median annual wage, the projected employment change and growth rate from 2014 to 2024, and education and training categories are presented.

Occupational Groups (Note—click a link below to scroll the page to the occupational group):

Management occupations

Business and financial operations occupations

Computer and mathematical occupations

Architecture and engineering occupations

Life, physical, and social science occupations

Community and social service occupations

Legal occupations

Education, training, and library occupations

Arts, design, entertainment, sports, and media occupations

Healthcare practitioners and technical occupations

Healthcare support occupations

Protective service occupations

Food preparation and serving related occupations

Building and grounds cleaning and maintenance occupations

Personal care and service occupations

Sales and related occupations

Office and administrative support occupations

Farming, fishing, and forestry occupations

Construction and extraction occupations

Installation, maintenance, and repair occupations

Production occupations

Transportation and material moving occupations

# Management occupations

#### Legislators

Develop, introduce or enact laws and statutes at the local, tribal, State, or Federal level. Includes only workers in elected positions.

2014 employment: 58,300

May 2015 median annual wage: **\$41,260** Projected employment change, 2014–24: Number of new jobs: **23,600** 

Growth rate: 23 percent (Much faster than average)

#### Education and training:

Typical entry-level education: High school diploma or equivalent

Work experience in a related occupation: None

Typical on-the-job training: None

#### O\*NET:

29-2099.00 - Health Technologists and Technicians, All Other

29-2099.01 - Neurodiagnostic Technologists 29-2099.05 - Ophthalmic Medical Technologists

<u>29-2099.06 - Radiologic Technicians</u> <u>29-2099.07 - Surgical Assistants</u>

#### Healthcare practitioners and technical workers, all other

All healthcare practitioners and technical workers not listed separately.

2014 employment: 44,200

May 2015 median annual wage: **\$48,270** Projected employment change, 2014–24: Number of new jobs: **6,100** 

Growth rate: 14 percent (Much faster than average)

#### Education and training:

Typical entry-level education: Postsecondary nondegree award

Work experience in a related occupation: None

Typical on-the-job training: None

29-9099.01 - Midwives

#### O\*NET:

29-9099.00 - Healthcare Practitioners and Technical Workers, All Other

# Healthcare support occupations

# Medical equipment preparers

Prepare, sterilize, install, or clean laboratory or healthcare equipment. May perform routine laboratory tasks and operate or inspect equipment.

2014 employment: **52,000** 

May 2015 median annual wage: **\$33,330** Projected employment change, 2014–24:

Number of new jobs: 7,300

Growth rate: 14 percent (Much faster than average)

# Education and training:

Typical entry-level education: High school diploma or equivalent

Work experience in a related occupation: None

Typical on-the-job training: Moderate-term on-the-job training

#### O\*NET:

31-9093.00 - Medical Equipment Preparers

# Pharmacy aides

# **Summary Report for:**

31-9093.00 - Medical Equipment Preparers

Updated 2016

Bright Outlook

Prepare, sterilize, install, or clean laboratory or healthcare equipment. May perform routine laboratory tasks and operate or inspect equipment.

Sample of reported job titles: Central Processing Technician (CPT), Central Service Technician (CST), Central Sterile Supply Technician (CSS Technician), Certified Registered Central Service Technician (CRCST), Instrument Technician, Sterile Preparation Technician, Sterile Processing and Distribution Technician (SPD Technician), Sterile Processing Technician, Sterile Technician, Sterile Processing Technician

# Knowledge

All 5 displayed

- Customer and Personal Service Knowledge of principles and processes for providing customer and personal services. This includes customer needs assessment, meeting quality standards for services, and evaluation of customer satisfaction.
- English Language Knowledge of the structure and content of the English language including the meaning and spelling of words, rules of composition, and grammar.
- Biology Knowledge of plant and animal organisms, their tissues, cells, functions, interdependencies, and interactions with each other and the environment.
- Production and Processing Knowledge of raw materials, production processes, quality control, costs, and other techniques for maximizing the effective manufacture and distribution of goods.
- Public Safety and Security Knowledge of relevant equipment, policies, procedures, and strategies to promote effective local, state, or national security operations for the protection of people, data, property, and institutions.

back to top

# Skills

- 5 of 12 displayed
  - Critical Thinking Using logic and reasoning to identify the strengths and weaknesses of alternative solutions, conclusions or approaches to problems.
  - Monitoring Monitoring/Assessing performance of yourself, other individuals, or organizations to make improvements or take corrective action.
  - Quality Control Analysis Conducting tests and inspections of products, services, or processes to evaluate quality or performance.
  - Active Listening Giving full attention to what other people are saying, taking time to understand the points being made, asking questions as appropriate, and not interrupting at inappropriate times.
  - Operation Monitoring Watching gauges, dials, or other indicators to make sure a machine is working properly.

back to top

# **Abilities**

- Near Vision The ability to see details at close range (within a few feet of the observer).
- Problem Sensitivity The ability to tell when something is wrong or is likely to go wrong. It does not involve solving the problem, only recognizing there is a problem.
- Oral Comprehension The ability to listen to and understand information and ideas presented through spoken words and sentences.
- Arm-Hand Steadiness The ability to keep your hand and arm steady while moving your arm or while holding your arm and hand in one position.
- Deductive Reasoning The ability to apply general rules to specific problems to produce answers that
  make sense.

back to top

# **Work Activities**

5 of 27 displayed

- Evaluating Information to Determine Compliance with Standards Using relevant information and individual judgment to determine whether events or processes comply with laws, regulations, or standards.
- O Documenting/Recording Information Entering, transcribing, recording, storing, or maintaining information in written or electronic/magnetic form.
- O Monitor Processes, Materials, or Surroundings Monitoring and reviewing information from materials, events, or the environment, to detect or assess problems.
- Processing Information Compiling, coding, categorizing, calculating, tabulating, auditing, or verifying information or data.
- O Inspecting Equipment, Structures, or Material Inspecting equipment, structures, or materials to identify the cause of errors or other problems or defects.

back to top

# **Detailed Work Activities**

5 of 9 displayed

- Clean medical equipment.
- Prepare medical instruments or equipment for use.
- Operate medical equipment.
- Maintain medical equipment or instruments.
- Record vital statistics or other health information.

back to top

# **Work Context**

5 of 33 displayed

- Indoors, Environmentally Controlled 100% responded "Every day."
- Telephone 100% responded "Every day."
- O Wear Common Protective or Safety Equipment such as Safety Shoes, Glasses, Gloves, Hearing Protection, Hard Hats, or Life Jackets — 98% responded "Every day."
- Exposed to Contaminants 79% responded "Every day."
- Exposed to Disease or Infections 88% responded "Every day."

# Credentials

back to top

# Interests

All 3 displayed

Interest code: RCI

- Realistic Realistic occupations frequently involve work activities that include practical, hands-on problems and solutions. They often deal with plants, animals, and real-world materials like wood, tools, and machinery. Many of the occupations require working outside, and do not involve a lot of paperwork or working closely with others.
- Conventional Conventional occupations frequently involve following set procedures and routines. These occupations can include working with data and details more than with ideas. Usually there is a clear line of authority to follow.
- O Investigative Investigative occupations frequently involve working with ideas, and require an extensive amount of thinking. These occupations can involve searching for facts and figuring out problems mentally.

back to top

# Work Styles

- Attention to Detail Job requires being careful about detail and thorough in completing work tasks.
- O Dependability Job requires being reliable, responsible, and dependable, and fulfilling obligations.
- Cooperation Job requires being pleasant with others on the job and displaying a good-natured, cooperative attitude.
- Independence Job requires developing one's own ways of doing things, guiding oneself with little or no supervision, and depending on oneself to get things done.

O Stress Tolerance — Job requires accepting criticism and dealing calmly and effectively with high stress situations.

back to top

# **Work Values**

- O Support Occupations that satisfy this work value offer supportive management that stands behind employees. Corresponding needs are Company Policies, Supervision: Human Relations and Supervision: Technical.
- O Relationships Occupations that satisfy this work value allow employees to provide service to others and work with co-workers in a friendly non-competitive environment. Corresponding needs are Coworkers, Moral Values and Social Service.
- Working Conditions Occupations that satisfy this work value offer job security and good working conditions. Corresponding needs are Activity, Compensation, Independence, Security, Variety and Working Conditions.

#### **Employment Wage Statistics**

The table below shows the estimated Employment Wage Statistics for individuals in Louisiana employed as Medical Equipment Preparers in 2015.

Rate Type / Statistical Type	Entry Level	Median	Experienced
Annual wage or salary	\$21,794	\$27,573	\$31,664
Hourly wage	\$10.48	\$13.26	\$15.22
Source: Labor Market S	tatistics, Quarterly Census of Employmen	nt and Wages Program	

Downloaded: 10/26/2016 5 23 PM

#### Wage Rates Area Distribution

The table below shows the distribution of the estimated 2015 Median Annual labor market wage rates for individuals employed as Medical Equipment Preparers in Louisiana by regional labor market area.

Rank	Area Name	2015 Median Annual Wage
1	2nd Regional Labor Market Area, Baton Rouge	\$28,458
2	4th Regional Labor Market Area, Lafayette	\$28,071
3	7th Regional Labor Market Area, Shreveport	\$28,006
4	1st Regional Labor Market Area, New Orleans	\$27.837
5	8th Regional Labor Market Area, Monroe	\$27,383
6	5th Regional Labor Market Area, Lake Charles	\$24.486

The median wage is the estimated 50th percentile; 50 percent of workers in an occupation earn less than the median wage, and 50 percent earn more than the median wage. Entry level and Experienced wage rates represent the means of the lower 1/3 and upper 2/3 of the wage distribution, respectively. Data is from an annual survey.

201 Community College Drive Baton Rouge, Louisiana 70806

March 30, 2017

Board of Supervisors
The Louisiana Community and Technical College System
265 South Foster Drive
Baton Rouge, Louisiana 70806

Attention:

Paul E. Carlsen, Ph.D., LCTCS Chief Content Officer

René Cintrón, Ph.D., LCTCS Executive Director, Education and Research

Dear Drs. Carlsen and Cintrón:

Baton Rouge Community College (BRCC) requests the approval of the Louisiana Community and Technical College System (LCTCS) Board of Supervisors for the termination of the three technical programs and removal of the programs from BRCC's active program inventory.

#### **Program Deletions:**

Barber-Styling, Technical Diploma (TD) - 0 Stars. CIP Code 12.0402 Office Administration TD - 3 Stars. CIP Code 52.0401

Both programs had low enrollment and few program completers. The teach outs for Barber-Styling and for Office Administration, submitted in Summer 2015 to the Council on Occupational Education (COE), were completed in Fall 2016 and Spring 2016, respectively. [The merger of BRCC with the former Capital Area Technical College (CATC), where the programs originated, had not been approved by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), and the former CATC was still operating as a COE-accredited institution.]

The LCTCS form for reporting curriculum actions and the Board of Regents' Request to Terminate an Academic Degree Program are attached. Please let me know if you need additional information. Thank you for your consideration of this request.

Sincerely,

Larissa Littleton-Steib, Ph.D.

cousing touchers to be

Chancellor

C: Margaret McMichael, Ph.D., Director of Curriculum and Articulation

## LOUISIANA'S COMMUNITY & TECHNICAL COLLEGE SYSTEM

New Program and Curriculum Modification Form

#### **Baton Rouge Community College**

credit and clock hou levels.)	rs, and for Program	Tern	urriculum Modifications, state previous nination, state program and all award  C program inventory.	

REASON/JUSTIFICATION FOR THE PROPOSED CHANGE (Include support such as four-year university agreements, industry demand, advisory board information, etc.)

Due to declining enrollment and low numbers of completers, the teach out for the Barber-Styling program began in the fall of 2015, prior to the approval of the merger of BRCC with the former Capital Area Technical College (CATC) by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC). The plan to close and teach out the program was sent to the Council on Occupational Education (attached). The teach out was completed in 2016, after SACSCOC had approved the merger and around the time that the Board of Regents requested a merged program inventory for BRCC. The Barber-Styling program was not included

on the merged program inventory; the submission of this proposal is a formality for the records of BRCC, LCTCS, and the Board of Regents.

#### Barber-Styling Technical Diploma

The Barber-Styling program is designed to prepare students to work efficiently in the industry of Barber-Styling. This competency-based program includes classroom instruction and practical/lab experience under supervision of the instructor.

Practical skills are developed through experience in a school-based, on-site shop which is equipped and managed according to industry standards by the students with instructor supervision. Upon completion of this program, which is approved by the LA State Board of Barber Examiners and meets the 1500-hour requirement, students are eligible to take the LA State Board of Barber Examiners licensure examination.

To receive this diploma, the student must:

- Have a cumulative GPA of 2.00 or better in all credit hours that are to be used towards the degree.
- Earn a "C" or better in all coursework.
- Complete the coursework listed below.

## INSTITUTIONAL TEACH-OUT FORM

(April 27, 2015)

This form is to be submitted for approval to conduct a teach-out within the institution.

This form is **NOT** used by institutions seeking approval to partner with an outside entity to conduct a teach-out.

Public Institutions: Email one PDF copy to Laura Page: pagel@council.org Non-Public Institutions: Email one PDF copy to Marcia Cox: coxm@council.org

#### **GENERAL INFORMATION**

Institution Name	Capital Area Technical 0	Institution ID#	306000			
Main Campus Address	3250 N. Acadian Thruwa	ay E., Baton Rouge,	LA 70805	COE invoices and		
Chief Administrative Officer	Kay McDaniel		Email	mcdanielk@mybrcd	c.edu	
COE Liaison	Phyllis Beckman Email		Email	beckmanp@mybrco	c.edu	
Telephone Number	(225) 359-9206	Extension				

The Council's policy for approval of the teaching-out of students requires that, at a minimum, all institutions submit a Teach-Out Plan and either an Institutional Teach-Out Form *or* a Two-Party Teach-Out Application. This policy applies to candidate and accredited institutions and all programs affected by a teach-out regardless of the mode of delivery.

#### Institutional Teach-Out Form

Submit an Institutional Teach-Out Form if the students are being taught-out within the institution, along with a copy of the Teach-Out Plan.

#### **Two-Party Teach-Out Application**

Submit a *Two-Party Teach-Out Application* for approval for the institution to partner with an *outside* entity to conduct a teach-out, along with a copy of the Teach-Out Plan. In these cases where member institutions partner with other entities to conduct a teach-out of students, a copy of the Teach-Out Agreement between the entities involved must also be submitted This documentation must go before the Commission for approval.

#### **Teach-Out Plan**

A plan for the teaching-out of students from a program or institution must be submitted upon the occurrence of any of the following events:

- (a) The Secretary of Education notifies the Council that the Secretary has initiated an emergency action against an institution, in accordance with section 487(c)(1)(G) of the HEA, or an action to limit, suspend, or terminate an institution participating in any Title IV, HEA program, in accordance with section 487(c)(1)(F) of the HEA, and that teach-out plan is required.
- (b) A State licensing or authorizing agency notifies the Council that an institution's license or legal authorization to provide an educational program has been or will be revoked.
- (c) The Council acts to withdraw, terminate, or suspend the accreditation or candidacy of the institution.
- (d) The institution notifies the Council that it intends to cease operations entirely or close a location that provides one hundred percent of at least one program, or closes a program before enrolled students complete.

A Teach-Out Plan must be consistent with applicable standards and regulations. The plan must provide for the equitable treatment of students by insuring that:

- (a) Students are provided all of the instruction promised by the closed educational program or institution prior to its closure but not provided to the students because of the closure;
- (b) Institutions that are closing must work with regulatory agencies to assure that students are placed; and
- (c) Students are notified of additional charges, if any, for completing the course or program at the teach-out institution

If the Commission approves the Teach-Out Plan that includes a program that is accredited by another accrediting agency, the Commission will notify that agency of the plan's approval.

**Teach-Out Agreement with Another Institution** 

A Teach-Out Agreement, which is entered into by a COE candidate or accredited institution or at the request of the Commission, must be consistent with applicable standards and regulations. The agreement must provide for the equitable treatment of students by insuring that:

(a) The agreement is between institutions that are accredited or in candidate status with an accrediting agency recognized by the U.S. Secretary of Education;

(b) The teach-out institution is geographically proximate to the closed program or institution;

- (c) The teach-out institution can remain stable, carry out its mission, and meet all obligations to existing students;
- (d) The teach-out institution can demonstrate compatibility of its program structure and scheduling to that of the closed program or institution; and,
- (e) The teach-out institution will provide students with information about any additional charges, if any.

#### **Teach-Out of Another Institution**

An institution must notify and receive Commission approval prior to teaching-out students of another institution. The teach-out of programs that are not currently offered by the institution may require a focused team visit in the event that the teach-out requires special safety precautions and procedures.

#### Teachout Plan Barber-Styling

On May 1, Capital Area Technical College received official notification from the Council on Occupational Education that it continues to be in violation of Commission policy in that its program, Barber-Styling (TD), initially triggered for failure to comply with the benchmark for completion in the 2012 Annual Report, continues to report a completion rate below the established benchmark of 60%.

A comprehensive analysis of the academic status of the currently enrolled students indicates that the teach-out should be extended to December 2016 (rather than June 2016 date initially reported). No new students will be admitted to the program beginning with the fall 2015 semester. The institution will provide the currently enrolled students with the remaining coursework in order to complete the Barber-Styling curriculum by December 2016.

This program is not accredited with any other agency.

# Request to Terminate an Academic Degree Program or Administrative/Research Unit

1. Institution: Baton Rouge Community College (BRCC)
2. Type of Termination (check one)
X A. Academic Program (If A, complete all remaining sections)
B. Administrative Unit (If B, skip sections 3, 4, 5, and 6)
C. Research Unit - Center or Institute (If C, skip sections 3, 4, 5, and 6)
3. Degree Designation. (BA, MS, PhD, etc.) Technical Diploma (TD)
4. Title and CIP Code. Barber-Styling, CIP 12.0402
5. Semester/year at which no new enrollments will be accepted. Fall 2015
<ul> <li>6. Teach-out plan, including semester/year at which reporting of degrees shall cease.</li> <li>Teach out plan was completed in Fall 2016, which is also the final semester and year for reporting completers.</li> <li>7. Reason for request. (Ex: low demand, job opportunities, changing focus, program duplication, loss of funding sources, etc.)</li> </ul>
Explanation: The Barber-Styling TD was offered by the former Capital Area Technical College (CATC), which was accredited by the Council on Occupational Education (COE). As of Summer 2013, when the state-mandated merger became official, COE had placed the Barber-Styling program on probation, due to low enrollment and numbers of completers. The program was modified in 2014 to facilitate student completion, but the modifications were not approved in time to lift Barber-Styling from probationary status with COE. At the time, the merger of BRCC and the former CATC had not been approved by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), and the former CATC was required to comply with COE's directive to close the program. The teach out form submitted to COE is attached.  Following the SACSCOC approval of the merger, a merged program inventory was requested by the Academic and Student Affairs division of the Board of Regents. Since Barber-Styling was no longer accepting students, BRCC requested omission of Barber-Styling from the merged program inventory for BRCC. The submission of this document is a formality to complete the documentation of the termination of the program for BRCC, the Louisiana Community and Technical College System, and the Board of Regents.  * Include statements which address the impact of the termination upon remaining programs/units (if applicable). For example, a request to terminate the Department of Chemistry should also include information about the academic programs in that Department –
will they be maintained or terminated as well? If maintained, where will they reside? Will the department maintaining these programs be re-named? How will this further affect the administrative structure at the institution? Append documentation to this form.  B. If collaboration with other institutions is involved, identify partners. Each participating institution must submit a separate request form. N/A
Program/Unit Contact (name, title, email address, telephone number)
Justin Dedden, Interim Dean of Skilled Crafts and Technical Education; deddenj@mybrcc.edu; 225-216-8440
Campus Head: 3/3/17
Management Board: Date:

For Academic Program Termination: note the SACS/COC requirements (Substantive Change) for notification, teach-out plan/agreement, and request for SACS approval following BOR approval. Send BOR/AcAf a copy of the SACS/COC response to finalize the action.

REASON/JUSTIFICATION FOR THE PROPOSED CHANGE (Include support such as four-year university agreements, industry demand, advisory board information, etc.)

Due to declining enrollment, the teach out for the programs began in the fall of 2015, prior to the approval of the merger of BRCC with the former Capital Area Technical College (CATC) by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC). The plan to close and teach out the program was sent to the Council on Occupational Education (attached). The teach out was completed in 2016, after SACSCOC had approved the merger and around the time that the Board of Regents requested a merged program inventory for BRCC. The Office Administration program was not included on the merged program inventory; the submission of this proposal is a formality for the records of BRCC, LCTCS, and the Board of Regents.

#### Office Administration Technical Diploma

The Office Administration program prepares students to work in office environments as receptionists, office clerks, office assistants, data entry technicians, customer service representatives, word processor operators, and administrative assistants. Learning a variety of specialized office skills and computer-based applications, this career choice offers possible employment with businesses, non-profit organizations, and governmental agencies.

To receive this diploma, the student must:

- Have a cumulative GPA of 2.00 or better in all credit hours that are to be used towards the degree.
- Earn a "C" or better in all coursework.
- Complete the coursework listed below.

<b>PRO</b>	GRA	MO	F STI	UDY

#### CRAFT ADVISORY COMMITTEE MINUTES

#### Office Administration Department October 5, 2015

The Office Administration Department held its last advisory committee meeting on Monday, October 5, 2015 at 9:00 a.m.

Committee Members: Mrs. Norma Andre, Ms. Mary Hollins, Mr. Michael McLin, and

Mrs. Lucille St. Romain

Members Present: Mrs. Norma Andre, Ms. Mary Hollins, and Mr. Michael McLin

Faculty Mrs. Belvin Givens

#### **Program Outcomes**

As of May 2016, the Office Administration Department will be terminated.

#### Discussion

The meeting was called to order and I welcomed the Craft Advisory Committee members for the last time. I mentioned to the Committee members that Mrs. Lucille St. Romain had retired and this is the reason she was not present with us today. I mentioned to them how significant they were to the program in assisting us in making preparation for our students to enter the work world. I said to them the future of the Office Administration Department is dim in that it will no longer be in existence. I stated to them, due to low enrollment, our Department will be discontinued and the end result is a teach out. I told them that a teach out means no new students will be allowed to enroll in the program but only the current students will be given the opportunity to complete the program. We discussed that the top priority of keeping the Department open was advertising and continuous recruitment and how critical it is for our enrollment to keep increasing and how it is an extremely endless voyage.

I stated that the Work Force Program will supersede the Office Administration Department and will take effect instantaneously. I emphasized that there are some Work Force Programs that are currently being taught here at the BRCC New Roads Campus. Of course, there will be more programs that Work Force will bring to the school which will help people get into work world.

The Craft Advisory Committee commented that they apologize for **NOT** being as effective as they should have been and wish that they could have been more instrumental in assisting us in keeping students enrolled and finding employment. The Craft Advisory Committee stated that they will continue to work with the school in the future.

I **THANK** them for everything they have done for the Office Administration Department and they wish me success and happiness in my future endeavors.

With no further comments, the meeting was adjourned at 10:30 a.m.

Hivens)

Respectfully submitted,

Belvin Givens

## INSTITUTIONAL TEACH-OUT FORM

(April 27, 2015)

This form is to be submitted for approval to conduct a teach-out within the institution.

This form is **NOT** used by institutions seeking approval to partner with an outside entity to conduct a teach-out.

Public Institutions: Email one PDF copy to Laura Page: pagel@council.org Non-Public Institutions: Email one PDF copy to Marcia Cox: coxm@council.org

#### **GENERAL INFORMATION**

Institution Name	Capital Area reclinical college			Institution ID#	306000
Main Campus Address				(6-digit number referenced on COE invoices and membership certificates)	
Chief Administrative Officer	Kay McDaniel Email		Email	mcdanielk@mybrcd	c.edu
COE Liaison	Phyllis Beckman Em		Email	beckmanp@mybrc	c.edu
Telephone Number	(225) 359-9206	Extension			

The Council's policy for approval of the teaching-out of students requires that, at a minimum, all institutions submit a Teach-Out Plan and either an Institutional Teach-Out Form *or* a Two-Party Teach-Out Application. This policy applies to candidate and accredited institutions and all programs affected by a teach-out regardless of the mode of delivery.

#### Institutional Teach-Out Form

Submit an Institutional Teach-Out Form if the students are being taught-out within the institution, along with a copy of the Teach-Out Plan.

#### **Two-Party Teach-Out Application**

Submit a *Two-Party Teach-Out Application* for approval for the institution to partner with an *outside* entity to conduct a teach-out, along with a copy of the Teach-Out Plan. In these cases where member institutions partner with other entities to conduct a teach-out of students, a copy of the Teach-Out Agreement between the entities involved must also be submitted This documentation must go before the Commission for approval.

#### **Teach-Out Plan**

A plan for the teaching-out of students from a program or institution must be submitted upon the occurrence of any of the following events:

- (a) The Secretary of Education notifies the Council that the Secretary has initiated an emergency action against an institution, in accordance with section 487(c)(1)(G) of the HEA, or an action to limit, suspend, or terminate an institution participating in any Title IV, HEA program, in accordance with section 487(c)(1)(F) of the HEA, and that teach-out plan is required.
- (b) A State licensing or authorizing agency notifies the Council that an institution's license or legal authorization to provide an educational program has been or will be revoked.
- (c) The Council acts to withdraw, terminate, or suspend the accreditation or candidacy of the institution.
- (d) The institution notifies the Council that it intends to cease operations entirely or close a location that provides one hundred percent of at least one program, or closes a program before enrolled students complete.

A Teach-Out Plan must be consistent with applicable standards and regulations. The plan must provide for the equitable treatment of students by insuring that:

- (a) Students are provided all of the instruction promised by the closed educational program or institution prior to its closure but not provided to the students because of the closure;
- (b) Institutions that are closing must work with regulatory agencies to assure that students are placed; and
- (c) Students are notified of additional charges, if any, for completing the course or program at the teach-out institution

If the Commission approves the Teach-Out Plan that includes a program that is accredited by another accrediting agency, the Commission will notify that agency of the plan's approval.

#### **Teach-Out Agreement with Another Institution**

A Teach-Out Agreement, which is entered into by a COE candidate or accredited institution or at the request of the Commission, must be consistent with applicable standards and regulations. The agreement must provide for the equitable treatment of students by insuring that:

- (a) The agreement is between institutions that are accredited or in candidate status with an accrediting agency recognized by the U.S. Secretary of Education;
- (b) The teach-out institution is geographically proximate to the closed program or institution;
- (c) The teach-out institution can remain stable, carry out its mission, and meet all obligations to existing students;
- (d) The teach-out institution can demonstrate compatibility of its program structure and scheduling to that of the closed program or institution; and,
- (e) The teach-out institution will provide students with information about any additional charges, if any.

#### **Teach-Out of Another Institution**

An institution must notify and receive Commission approval prior to teaching-out students of another institution. The teach-out of programs that are not currently offered by the institution may require a focused team visit in the event that the teach-out requires special safety precautions and procedures.

## Teachout Plan Office Administration

In May 2015, a decision was made to close the Office Administration program due to low enrollment. The Office Administration program was implemented in Fall 2014 as a revision of the Business Office Technology program. This has been a low enrollment program at both locations. New students were admitted in the Spring 2015 semester, but since the decision to close the program was made, no new students will be admitted starting with the Summer 2015 term. The institution will provide the currently enrolled students with the remaining coursework in order to complete the Office Administration curriculum by June 30, 2016.

This program is not accredited with any other agency.
