**TO:** Dr. Monty Sullivan  
LCTCS President

**THROUGH:** Joseph F. Marin   
Vice President of Operations

**FROM:** Anthony Brown  
Chief Facilities Management Officer

**DATE:** September 12, 2023

**SUBJECT:** Capital Outlay Requests for FY 2024-2025

APPROVED  
 10/4/23  
LCTCS BOARD OF SUPERVISORS

## FOR BOARD ACTION

**Recommendation:** Staff recommends that the Board approve the FY 2024-2025 Capital Outlay list of recommended projects and authorize the President to make any technical corrections to the request that may be necessary before final submission to the Board of Regents.

**Background:** This list reflects the capital construction needs of each of the LCTCS member colleges. The FY 2024-2025 LCTCS Capital Outlay recommended projects are prioritized in groups as follows:

- **Emergency Projects** are projects that are essential to correct conditions that seem to be hazardous to the safety of life or property or to satisfy state or federally mandated codes.
- **Continuing Projects** are projects that have received previous funding or are in progress and require additional funding for continuation or completion.
- **New Projects** are those projects that have not been introduced for funding consideration or have been submitted but have not received any funding.

This list does not include the complete list of deferred maintenance needs of the colleges and does not include all projects that have a construction cost of less than \$500,000. Some of the deferred maintenance needs are reflected in the \$20,000,000 system-wide request for the Waterproofing and Reroofing Project that is a part of the number one emergency project for this system. The LCTCS staff maintains a prioritized list of roofing projects needed at our member colleges. Many of the construction projects valued at less than \$500,000 at the various campuses are included in the \$17,500,000 Small Capital Project for LCTCS found in the New Projects category. These two projects have been recurring projects in the LCTCS list of capital outlay needs since 1999.

**Fiscal Impact:** The attached preliminary capital outlay request includes projects valued at \$521.6 million for planning, acquisitions, construction, equipment, and renovations at the various LCTCS campuses over the next five years.

**History of Prior Actions:** The LCTCS Board of Supervisors submits an annual Capital Outlay Request to the Board of Regents. A list of preliminary Capital Outlay projects was provided to the Board for review and advisement at the August 9, 2023 meeting.

**Benefits to the System:** The capital outlay submission process provides an opportunity to request funding to construct new facilities, make additions, renovate, refurbish, restore, and enhance the facilities of the LCTCS.
