LCTCS BOARD OF SUPERVISORS

FOR BOARD INFORMATION

Background: At the November 2015 Board meeting, the Board approved LCTCS Policy #1.047, Program Health Index (see attached). The intent of the policy is to provide a mechanism to assess program performance in terms of Our Louisiana 2020: Building the Workforce of Tomorrow and in terms of alignment with regional and statewide workforce demands while recognizing the need for fiscal sustainability.

A total of 126 programs across the LCTCS were reviewed by a LCTCS cross-functional team using the framework outlined in the policy (see attached list of programs). Conversations are ongoing with system staff regarding program recommendations that will be published in the Curriculum Library. Program recommendations include continue, expand, modify, and terminate. Recommendations requiring approval such as modifying curriculum and terminating loss-leader programs will be forthcoming to the Board.

Fiscal Impact: Expansions and modifications are intended to increase net revenue. Terminations are expected to save funds.

History of Prior Actions: The Board approved the recommendations at the June 2018 meeting. The Leadership Team agreed to review 1/3rd of all programs each year under the policy.

Benefits to the System: Reviewing programs will reduce program time to completion, increase student retention and transfer, and eliminate loss-leaders to save colleges money.
