From March 2018-January 2019, Bossier Parish Community College engaged employees, students, and the community in conversations and assessments to determine the College's strategic priorities in meeting the current and future needs of our region. The results of the data gathered have provided guidance in the development of a new and improved strategic plan for the institution. As part of this process, the mission statement for the College has been updated to reflect those priorities. A Strategic Planning Steering Committee and BPCC's Executive Council have provided feedback and insight in the articulation of the new mission statement, and on March 4, 2019, the Executive Council approved the mission statement. I am requesting that the Louisiana Community and Technical College System Board of Supervisors review the mission statement and formally approve it.
